HOLIDAYS

through the WOODS

GET IN THE SPIRIT FOR SEASONAL CELEBRATIONS WITH A DELIGHTFUL THANKSGIVING SETTING, ABUNDANT IN FOREST GREEN AND PASTORAL PATTERNS.

natural wonder

For a charming holiday theme that will carry you from Thanksgiving through the chilliest days of winter, fashion a tableau around a sylvan motif and an earthy palette. Spode's classic Woodland pattern echoes the splendor of a forest setting filled with feathered and furry friends at every turn. A verdant charger and a vintage Majolica maple leaf accent plate set the backdrop for these rustic scenes. Enhance the nature-inspired elements with a richly burnished wooden table—free of placemats and tablecloths—and antler-handle utensils. Complete the setting with silver napkin rings, pewter goblets, and pewter-footed stemware to capture the gleam of flickering candlelight. Hurrah for the fun!

bountiful scene

Cherished heirlooms—from the antique barley-twist candlesticks to the vintage embroidered linen napkins—make this display special as they seamlessly blend with the newer pieces. Acorns and pinecones are piled into the candlestick bases and scattered around a generous centerpiece of heuchera, artichokes, pinecones, cedar, white spray roses, parsley, and pheasant feathers. Tea lights tucked in a cut-crystal sugar and creamer set add a glow as warm as this magnificent season.
